Alvaro Gonzalez, CEO of El Dorado International Airport

Olivier Jankovec, Director General, ACI EUROPE

Moderator Panagiotis Karamanos, Senior Advisor

Sustainability definitions

Sustainable development is the kind of development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

The Brundtland Commission

... the environmental, economic and social pillars of sustainable development are especially relevant to the aviation sector that, by offering a safe and efficient means of mass transportation, is universally recognised as an essential component of the global economy and universal social progress.”
